EXPERIENCE

Teaching Assistant | Science Valley Academy (SVA)

2017 – UNTIL NOW

I work in the Department of Quality within the Department of Architecture. And a member of the Community Participation Committee.

Supervising the architectural competition (GREEN PYRAMDIS) | Science Valley Academy (SVA)

2018

Among the team of supervisors, was among the officials responsible for presetting the project beside me: Arch/MOHAB NASSER, (under the Academy of Science Valley) organized by the British University. And I who put the design idea, which was worked on and seen in the project, which was the embodiment of the movement of worshiper during prayer in the blocks of the mosque. Supervising the architectural competition within the Department of Architecture.

Architect | Arab Academy (course design process-Pre-Master)

2018

Reviving the heritage of handicrafts

This was done by choosing the place of study in Upper Egypt in **QENA** Governorate - **NAQADA** City - Sheikh Ali village. That village was famous for its pottery making, and this craft was on the verge of extinction. Prestigious and, but their interest in this craft because it is an inheritance to them from ancient times, and it became a hobby for some residents. Thus, a center was designed for that craft, in which manufacturing and distribution to sales representatives is carried out through an exhibition of income in the center. The site was chosen on the Nile and close to the Cairo-Aswan road for ease of transportation and distribution of production
